

Irritrol[®]

UNIQUE
LIGHTING SYSTEMS[®]

The SMRT Logic internet gateway provides secure, on-demand access to your Toro[®] and Irritrol[®] irrigation controller, Unique Lighting Systems[®] outdoor landscape lighting transformer, or other landscape features using a smartphone, tablet, PC or smart home speaker.

SMRT Logic Gateway

SMRT LOGIC[®]

CLOUD BASED HUB FOR LANDSCAPES

SIMPLE SET-UP

Simply plug SMRT Logic into any internet modem or router. SMRT Logic makes a connection to the web automatically. No Wi-Fi passwords or permissions required.

CONNECTION FOR OUTDOOR ENVIRONMENTS

SMRT Logic communicates to the irrigation controller, outdoor lighting transformer and other landscape features using a secure and robust transmission signal with more range and reliability than Wi-Fi and Bluetooth platforms.

SECURE RELIABILITY

SMRT Logic features industry standard encryption and mobile device operation with or without being connected to a Wi-Fi network.

COMPATIBLE

SMRT Logic is backward compatible. It works with all existing Toro, Irritrol and Unique Lighting controllers or transformers for easy, affordable system upgrades.

How It Works?

TORO®

Toro Wireless Auxiliary Relay

EVOLUTION®

TMC-424 TMC-212 Custom Command™

The TORO section features a black Toro Wireless Auxiliary Relay. Below it, the EVOLUTION series includes three control units: TMC-424, TMC-212, and Custom Command™.

IRRITROL®

Climate Logic® Weather System CL-MR Mini Receiver

KD2™

MC-E (Blue)

TOTAL CONTROL®-R

The IRRITROL section shows the Climate Logic® Weather System and CL-MR Mini Receiver. Below is the KD2™ weather station and the MC-E (Blue) unit. At the bottom is the TOTAL CONTROL®-R weather station.

UNIQUE LIGHTING SYSTEMS®

LPCU-A

Centaurus 6 Comet Intrepid Cardinal

The UNIQUE LIGHTING SYSTEMS® section features the LPCU-A receiver and four lighting fixtures: Centaurus 6, Comet, Intrepid, and Cardinal.

Easy to Setup, Easy to Use

1. Connect the SMRT Logic Internet Gateway (Ethernet connection to router)
2. Register and create an account at www.SMRTSCAPE.com
3. Configure location(s), irrigation controllers, lighting scenes, and AUX relays.

Additional Features

- ✓ Add users (representatives) to an account for greater flexibility and ease of system management.
- ✓ Control and manage up to 10 irrigation controllers through a single SMRT Logic® gateway.
- ✓ Control and program any 120V-powered indoor or outdoor device using the Wireless Auxiliary Relay (e.g., pond lights, fountains, awnings, Holiday lights, or indoor lamps).
- ✓ Custom name stations and programs, and add images through the SMRTscape™ mobile app and website.
- ✓ The TMC-424, TMC-212, and Custom Command™ equipped with Irritrol® Mini-Receiver (CL-MR) or Climate Logic® Weather System (CL-100-WIRELESS) enables automatic weather-based irrigation schedule adjustment.

SPECIFICATIONS

Operational

- Input: 5Vdc 1 amp
- FCC

Dimensions

- 4.5" W x 5.5" H x 4.5" D (antenna installed in typical orientation)
- Weight: 0.6 lbs.

Warranty

- Five Years
